In accordance with the University of Swansea’s financial regulations, the Treasurer is required to submit a Finance Report to the Finance Committee. This report includes a comprehensive overview of the University's financial performance, budgetary allocations, and financial planning for the upcoming year.

The report highlights the University's financial health, including income and expenditure over the year, reserves maintained, and the University's financial strategy. It also includes a detailed breakdown of the University's assets, both current and fixed, as well as a summary of the University's financial transactions and cash flow statement.

The Finance Committee, in its capacity, reviews and approves the Treasurer's report to ensure that the University's financial activities are in line with its educational objectives and financial sustainability.
