2015/16 ANNUAL REPORT

A REFLECTION OF OUR YEAR

THIS YEAR, WE’VE SEEN...

1,423,765 people benefit as we’ve responded to disasters

2,790,831 people impacted as we’ve helped communities develop

25,817 churches envisioned

57 Inspired Individuals supported

92,246 people trusting Tearfund to help the world’s poorest

4,214,596 total number of beneficiaries
We're working in more than 50 of the world's poorest countries.
DIREKTORS' REPORT
The Board of Directors present their Annual Report, together with the consolidated audited financial statements, for the year ended 31 March 2016.

PRINCIPAL ACTIVITY
Tearfund is a Christian relief and development agency committed to eradicating poverty.

We do this by:
- responding to disasters – ensuring communities affected by disasters receive life-saving assistance, recover quickly and are better equipped to face and respond to future hazards
- developing communities – working sustainably and holistically with local churches and communities to reduce poverty and build resilience
- envisioning churches – enabling the global church to address poverty and injustice
- changing policies – changing unjust policies and practices of the powerful to deliver justice for poor communities

We deliver this through partners, operational programmes, alliances and inspired individuals (a programme to identify, support and resource social entrepreneurs with potential to transform the lives of millions living in poverty) and by focusing on particular areas of expertise.

Tearfund’s core competencies encompass:
- mobilising the church to help the poor
- churches spearheading national advocacy campaigns
- food security
- livelihoods
- water, sanitation and hygiene (WASH)
- disaster response and resilience

We are developing our expertise in responding to:
- sexual and gender-based violence
- conflict with peacebuilding

This year’s impact and learning report gives more detail on Tearfund’s impact in its core competency areas: www.tearfund.org/impactreport

Tearfund’s partners are local churches, denominations, and Christian national and international NGOs who agree with Tearfund’s statement of faith and meet Tearfund’s partnership criteria. Tearfund’s operational programmes are undertaken in countries hit by large-scale disasters, where the availability and capacity of partners are limited. Such programmes are directly overseen and implemented by Tearfund staff according to Tearfund’s policies and standards of good practice.

Tearfund is a member of various alliances and networks that provide important support to its work in a number of areas. These include: the Disasters Emergency Committee (DEC), Bond, Micah Network, the Integral Alliance, European Union Christian Organisations in Relief and Development (EU-CORD), the Start Network, the Core Humanitarian Standard, StopAids and the Evangelical Alliance.

We have referred to the Charity Commission’s guidance on reporting on public benefit when reviewing our aims and objectives and planning our activities.

Tearfund and its partners work with people living in poverty around the world irrespective of their race, faith or nationality, and the Directors ensure that the activities undertaken contribute to the aims and objectives of the charity. The Directors are therefore confident that Tearfund meets the public benefit requirements.

The Directors’ report includes the following: Chairman’s introduction, the Strategic report, Tearfund’s Quality Standards, Structure, governance and management, and other information as specified on pages 48-49. The objectives, activities and related achievements and performance are included in the following sections where each of the outcomes is described.

TEN-YEAR VISION
In 2006 we set a ten-year vision to see 50 million people released from material and spiritual poverty through a worldwide network of 100,000 local churches. To date we’ve envisioned 132,395 churches and reached more than 40 million beneficiaries.

Given the needs of billions of people living in poverty in the world, it is imperative that we do all we can to bring an end to poverty for as many people as possible.

That’s why we are refreshing our strategy to ensure that we build upon our vision and set the right direction for Tearfund in the coming years.
We want to see...

What does this look like?
After natural or man-made disasters, communities are equipped with basic resources and skills to enable recovery and to protect against future extreme events.

We do this by:
- providing effective emergency assistance
- helping people to recover from bereavement, loss of work, having nowhere to live, and being vulnerable to malnutrition and disease
- building individuals’ and communities’ ability to plan ahead and be more resilient to future shocks
- bringing the local church into disaster response and recovery
- mounting our own response operations and supporting long-term partners when required
- mobilising our staff and supporters to pray

We said that in 2015/16 we would:
- respond quickly and effectively to new large-scale disasters (eg Nepal) and complex political emergencies (eg DRC)
- respond to an increased number of small-scale disasters
- deepen our collaboration with networks
- equip and train our partners to respond effectively to disasters
- review how we work, to ensure we get the right people with the right resources to the right place at the right time

In 2015/16 we spent a total of £28.2m (2014/15 £25.6m) responding to disasters. We delivered:
- food, essentials, psychosocial support, water and hygiene supplies, cash for seeds and emergency shelter to more than 150,000 people in Nepal. We also moved to longer-term work with the focus on rebuilding permanent homes, restoring large-scale water systems, and providing livelihoods support and psychosocial counselling.
- survival essentials: shelter, food, healthcare, clean water and sanitation to more than 25,000 displaced people facing the freezing Iraqi winter.

We want to see...

... disasters responded to

Our aim is for disaster-affected communities to be supported and equipped to recover quickly and be more resilient to future disasters.

We do this by:
- an ongoing focus on small-scale and low-profile disasters, which are often out of the media spotlight but which still wreck devastation. We’ve supported partners in Bangladesh, Myanmar, Malawi, Mozambique, Colombia, India, Mali, Chad, Pakistan, Nigeria and Burundi. We are able to use our extensive global reach and unique relationships in local churches to respond quickly. For example, in Pakistan in October 2015, winterised tents were quickly distributed to provide life-saving shelter to the most vulnerable families.
- deeper collaboration with the Start Network and Integral Alliance. Twenty members of the Integral Alliance worked together on the Nepal earthquakes response where we played a significant role. This enabled us to be part of a co-ordinated and more effective response. Working with the Start Network we greatly extended our reach – building capacity in DRC, Bangladesh, Ethiopia, Philippines and Pakistan.
- ongoing support to communities affected by Ebola. Survivors are stigmatised and often deprived of livelihoods. We provided more than 1,140 survivors with counselling and start-up capital to generate income. We constructed 23 wells to provide clean water to about 7,000 people.
- the final stages of our directly implemented Typhoon Haiyan Philippines response programme – reaching 2,000 households with livelihoods support, building shelter for more than 350 households and delivering shelter repair kits to 480 families. Determined to leave a lasting impact, we ensured more than 6,000 community members and leaders received disaster risk reduction training and we have ensured that ongoing typhoon response work continues through our support to a local organisation.
care to 30,000 acutely malnourished children and nursing mothers in Sudan, where protracted conflict limits access to food and water. By helping these vulnerable women and children, we provided a safe place. However, in January 2016, the Sudanese government informed us that our work in Sudan was to be closed down. Tearfund has worked in Darfur since 2004. Tearfund has given life-saving support to 300,000 people each year through feeding centres, clean drinking water, improved sanitation and food production. We’ve also provided local education.

We learnt:
- that by appointing a lead among Integral Alliance members in Nepal to liaise with local partners, produce situation reports and project proposals, and streamline communications, we freed local partners to focus on critical relief work.
- that we can further preserve the dignity of people affected by disasters by issuing cash grants or vouchers (rather than blankets, cooking items etc) to cover basic needs for food, shelter, health etc. We promptly reviewed our cash transfer programming (CTP) in Iraq to apply this learning.

- through Start Network training that supplies need not always be stored centrally, but need to be on standby within countries most likely to be affected by recurring disaster, such as Pakistan and Bangladesh.

In 2016/17, we aim to:
- strengthen contingency planning and local partner capacity in disaster-prone countries
- further develop our cash transfer programming (CTP) expertise
- respond to food crises in countries affected by El Niño changes in rainfall patterns and climate, such as in the Horn of Africa and Southern Africa
- strengthen our long-term programmes in complex political emergencies in South Sudan, Central African Republic and the Democratic Republic of Congo
- close down our long-term programme in Sudan, working with the authorities to ensure that the critical needs of vulnerable people previously served by Tearfund will still be met

Making an impact

Just one month before the earthquake of April 2015, Tearfund partner United Mission to Nepal (UMN) provided disaster risk reduction training to churches.

Participants went home and shared what they had learnt with their congregations. When the earthquake struck they were ready. They did not need to wait for assistance before they rescued their neighbours. They applied what they had learnt to save lives in their own community.

Hope for Thuli and Sher

When the earthquake hit Nepal on 25 April, Thuli and Sher were both inside the house they had lived in since they married 50 years ago. As the house began to collapse, they managed to make it outside to safety. But all of their possessions were buried in the rubble, including their stock of food and their seeds for the next harvest.

‘If the quake had happened at night when we were all sleeping, we wouldn’t just have lost our income. All our children would have died along with us,’ says Thuli.

Before the earthquake, 70-year-old Thuli had to work hard to provide enough food for her and her husband, who is too disabled to help her. She reared goats to sell at the local market, making no more than £8 a month, and grew crops on their land, which her neighbours helped her to harvest.

With no shelter, no food and no money after the earthquake, Thuli and Sher had little hope. But Tearfund provided them with an initial relief package of tarpaulins, blankets, food and cooking utensils. They followed this up with iron sheets so that the couple could build a better shelter to get them through the imminent monsoons. Tearfund’s long-term recovery phase then involved the training of masons on the construction of earthquake-resistant homes.

Nepal

The first 6 months

97,513 received emergency food aid

78,418 given shelter: tents, tarpaulins, iron sheeting

117,036 given water and hygiene supplies

5,815 given psychosocial support through protection training, counselling and temporary schooling

UNANNUAL REPORT AND FINANCIAL STATEMENTS 2015/16

Fleeing Homs

Rima lived in the war-ravaged city of Homs with her husband Samir, their four teenage children and Samir’s elderly mother. They fled during a particularly intense bout of fighting between the army and the opposition – and made their way westward to an area in Syria that has less fighting, where many displaced families have gone for safety.

‘We would be in the streets without your help,’ said Rima, whose family benefits from monthly food packages funded by Tearfund UK and Tear Netherlands.

Rima lived in the war-ravaged city of Homs with her husband Samir, their four teenage children and Samir’s elderly mother. They fled during a particularly intense bout of fighting between the army and the opposition – and made their way westward to an area in Syria that has less fighting, where many displaced families have gone for safety.

‘YOU SHOWED US RESPECT AND HUMANITY, AND THE MOST IMPORTANT THING IS THAT YOU HELPED US TO KEEP OUR DIGNITY’

The team from the church helped Rima’s family to find a single room to rent in a nearby village, which was all they could afford. The church provided the family with a few basic items to help them get started. In addition, they gave them a food package that contains rice, lentils and canned meat.

Unemployment has soared in Syria due to the war and 56-year-old Samir cannot find work. The family struggles daily to meet their basic needs. But they are grateful for the monthly food parcel that they continue to receive. Furthermore, the relationship they have with the project team at the church gives them some hope.

NEPAL

Fleeing Homs

Nepal

Making an impact

Nepal

The first 6 months
What does this look like?

Individuals, families and whole communities empowered and benefiting from long-term improvements in their health, livelihoods and relationships, and resilient to deal with events such as drought or flooding.

We do this by:
- working where the need is greatest in some of the world’s poorest areas
- enabling vulnerable people living in poverty and their communities to find their own solutions to poverty and injustice by using replicable and sustainable models of change

We said that in 2015/16 we would:
- find the approaches that have most impact and then replicate them
- develop new skills and grow our work in tackling sexual and gender-based violence, addressing conflict and promoting peacebuilding
- target the poorest and most vulnerable people living in poverty to ensure we reach those in greatest need
- advance our anti-trafficking programmes in particularly vulnerable locations and develop our rehabilitation support for those rescued from trafficking
- improve the impact of our Inspired Individuals by integrating them into our country plans
- assess and then improve how we develop the skills and capacity of our partners
- inspire 183 UK volunteers and 183 overseas volunteers through our International Citizenship Service to be involved in long-term poverty alleviation work

In 2015/16 we spent a total of £20.2m (2014/15 £21.1m) developing communities. We delivered:
- research on all our core areas of work to find out where we were having the greatest impact. For example, we evaluated church mobilisation activities in South Sudan; resilience building work such as rice banks and self-help groups in Myanmar; conservation farming approaches in southern Africa; a self-help group’s initiative in Somaliland; and interviews with sexual and gender-based violence survivors in CAR, Colombia and Myanmar.
- more programmes via our niche expertise to tackle the hidden issue of sexual and gender-based violence by expanding to Myanmar, the Middle East region and Colombia
- a review of 17 country strategies to ensure the poorest or the most vulnerable people groups are supported. For example, the strategy for Tanzania has been revised to incorporate the central regions of Singida and Dodoma based on poverty levels. In Myanmar, ethnic and religious minorities and disabled people are prioritised.
- protection programmes for 125,000 children across Asia who were highly vulnerable to the world’s fastest-growing crime, trafficking. Such programmes work with desperately poor families to stop them sending their children to cities where they can be easily lured by traffickers.
- an Inspired Individuals programme in the Great Lakes, one of the most conflict-scarred regions in Africa, to share learning between seven key individuals all working in peace and reconciliation in this region
- findings for the independent Keystone Partnership Survey across our Eurasia, Latin America and Caribbean countries – and we were rated in the top ten per cent of 74 organisations that our partners like to work with
- worked with 154 volunteers in the UK and 143 volunteers in Bolivia, South Africa and Bangladesh

... I have come that you may have life and have it to the full” John 10:10
SOMALILAND

Making an impact

Women have increased their household incomes by up to three times by taking loans from self-help groups.

See this year’s Impact and learning report for more detail: www.tearfund.org/impactreport

Tearfund partner Gargaar has been running a self-help group programme in Somaliland, where many live in squalid conditions due to civil war and political instability. These groups have helped to build a new culture of sisterhood among the female members. Among the groups interviewed, those who have taken loans for income-generating activities have increased their incomes by up to three times, helping to lift them out of poverty.

‘WHEN YOU ARE FACING PROBLEMS AS AN INDIVIDUAL, IT’S DIFFERENT FROM WHEN YOU FACE IT AS A GROUP; IT BRINGS POSITIVITY’ Self-help group member, Burao

RWANDA

Healthy communities

I have always wanted to wear clean clothes and maintain proper body hygiene, but getting water has always been a challenge,’ says Silas Habimana, a resident of Kamegeri, Rwanda.

Fellow resident Angelina Mukesha adds, ‘Now my children will not miss school in order to go and fetch water.’

Kamegeri sector in Nyamagabe district has the highest rates of poverty in the country. The villagers are extremely vulnerable to disasters; the topography is hilly with steep slopes, valleys and swamps. The majority of the 15,000 residents are small-scale subsistence farmers with very low incomes.

Before Tearfund’s partner Mouccore installed a gravity water system, which brought water to within 500 metres of more than 12,000 people, children and women would have to walk up to five kilometres per day to fetch water. Water-borne diseases and parasitic infections were rife due to poor hygiene and sanitation.

At the community event to celebrate the completion of the water project, a resident said: ‘Now people will be healthy. They will work and produce more food, be able to sell a surplus of their produce and engage in different businesses.’

‘WATER AFFECTS LIFE IN EVERY WAY. PEOPLE WITHOUT WATER HAVE NO LIFE AT ALL’
We want to see...

What does this look like?
Influencing and strengthening the theology of the church and Christian organisations, and building their capacity to respond to the needs of their community.

In 2015/16 we spent a total of £6.9m (2014/15 £7.0m) on envisioning the global church. We delivered:

- three conferences in Durban, Bangladesh and Burkina Faso to help our partners engage with key theological issues related to development work, and to learn from local practitioners
- Bible studies, theological papers, learning reports, videos, our regular Footsteps publications and a new blog to continue to build the capacity of Christian partners and churches engaging with their communities
- a new set of resources for learning and discipleship for overseas and UK volunteers to help them engage with poverty and theology more deeply. In the past year, 228 volunteers from the UK have benefited from this.
- resources for trainers for our 320 members in 48 countries and 100 organisations. Through these resources we are able to disseminate our practice widely. For example, plots of ‘local houses of prayer’ have started up across Africa.
- key gatherings in Phnom Penh, Nairobi and Ouagadougou to share learnings and strengthen practice. Mozambican participants in the Nairobi gathering were then able to develop new indicators to improve the impact of their work.

We learnt:

- empowering churches can help communities transform. An Indian church that had received training on working with local government enabled one marginalised community to gain a new road, providing 75 households with vital access to the main town and ensured 62 families received the government benefits they were due.

In 2016/17, we aim to:

- develop a core course in integral mission for country teams, partners and networks. We will strengthen relationships with theological colleges. We will also commission a number of theological research projects around peacebuilding, prosperity gospel, partiality, and marketing and fundraising.
- deliver four conferences in Uganda, Egypt and Asia (working alongside YWAM Call2All and Micah) – focusing on peacebuilding, human trafficking, sexual and gender-based violence and developing church and theological networks
- launch a brand new multi-lingual webshop to showcase and sell our publications for grassroots audiences
- send 300 UK volunteers overseas

Tearfund has found that empowering churches can help transform communities. Kale Heywet Church, a Tearfund partner. Photo: Alex Stewart/Tearfund

... churches envisioned

This is about seeing the global church embrace its calling to address poverty and injustice.
‘Church and community mobilisation has taught us a lot about unity, so now we are much more united... We learnt to love each other a lot more’

Church and community mobilisation (CCM), one of Tearfund’s key approaches, enables communities to develop without being dependent on external financing.

Twenty years ago, fighting swept through the remote village of Lozoh in South Sudan. The village was burnt to the ground and the pastor was murdered. The new pastor, Noel, heard about CCM and caught the vision. He decided to tackle one of the big challenges for Lozoh village – the quality of its school. There were only four benches and the teachers did not turn up.

The church shared their building with the school and sent three volunteer teachers for training. They also encouraged 17 committed villagers to make an agreement that they would work hard to grow additional food to support the teachers. Today, 80 children are benefiting from a better education and more are due to enrol. You can read more about this story in this year’s Impact and learning report.

In 1989 Tearfund founded the Footsteps magazine as a way to share information and inspiration with people working in impoverished and vulnerable communities. The regular Bible study feature is often used by church groups to help people engage with God’s word to discuss sensitive subjects such as HIV or harmful cultural practices.

Here are a few recent stories from readers of Footsteps:

- Pierre from Togo, for example, read about diabetes in Footsteps 87 and recognised his symptoms. When tested at his local health clinic, they confirmed he had the disease and he is now being treated. And Pierre decided to share what he’d learnt by organising awareness-raising events for his church and his association of cotton growers.

- Bachan Kubi is a disaster risk reduction programme co-ordinator for the Garo Baptist Convention. He describes Footsteps as ‘a resource, a guideline, a strategy paper, a technical paper, a research paper’, and shares what he learns with peers and community leaders.

When Bachan read about self-help groups in Footsteps, he was interested to learn about how these groups were working in other countries. He shared the ideas with his team and they started a couple of similar groups through disaster management committees in rural communities.

He says, ‘We discuss Footsteps articles in our staff meetings, and then we apply the techniques described in the articles in the field.’

Through Footsteps we are able to extend our reach even further. We distribute copies to 126 countries and many more read it online.
We want to see...

We do this by:

- empowering the church locally, nationally and globally to speak out in advocacy to those in power
- speaking out ourselves on behalf of the church and local partners through national, regional and global advocacy
- mobilising staff and supporters to pray and campaign for change

We said that during 2015/16 we would:

- mobilise a movement of Christians to live differently and call for change, such as putting pressure on world leaders to agree a global deal at the UN climate talks last December
- catalyse debate and discussion around climate change and influence a new area of research on how a ‘circular economy’ (for example, where products could be reused instead of being discarded) could be beneficial to emerging economies such as Brazil
- translate our new advocacy toolkit into Spanish and French so it is used even more widely to enhance our partners’ advocacy capability
- ensure advocacy guides are simple, focusing on the most effective and replicable practices
- update our 2012 advocacy baseline for all partner and operational advocacy and introduce new indicators to better understand and enhance our effectiveness

In 2015/16 we spent a total of £5.1m (2014/15 £4.4m) on activities connected with changing unjust policies and practices. We delivered:

- the launch of our Ordinary Heroes campaign as part of asking Christians to live differently. This enables Christians in the UK to make lifestyle changes and campaign to those in power for a green and fair economy that helps the world’s poorest people and the environment.
- a groundbreaking report, The restorative economy, setting out the need for a fair economy to lift everyone out of poverty and preserve the planet. This was eagerly received in parliament and at party conference side events.
- high engagement in the UN climate change talks in Paris in December 2015. For the first time these delivered a global climate change deal to limit average temperature rise to 2 degrees (and ideally 1.5 degrees) above pre-industrial norms, and to providing $100 billion in climate finance for the poorest nations annually. We believe that a decade of tireless campaigning played a part in this result.
- Spanish and French translations for our Advocacy toolkit, and support for the in-country advocacy work of our partners and operational teams. For example, we supported our partners to advocate in response to the Nepal earthquakes, the Ebola epidemic and the Burundi humanitarian crisis. We are working with more than 50 organisations to focus effort in Brazil, India, Nigeria, South Africa and the US, our strategic countries, to develop a global campaign for a green and fair economy.
- a simple guide for church-based partners to catalyse poor communities to hold their government’s officials accountable, and an advocacy case studies database
- a new baseline survey that significantly enhanced our understanding on how we can deliver even more effective advocacy strategies.

What does this look like?
Working at local, national and international levels, to speak with and for people who are poor in order to help them hold their governments accountable. We also speak with them, and on their behalf, to challenge structural inequalities and injustices.

He has sent me to proclaim freedom for the prisoners and recovery of sight for the blind, to set the oppressed free, to proclaim the year of the Lord’s favour’ Luke 4:18-19

Historic climate agreement. Tearfund made the voice of the poorest heard in Paris, to reduce the damaging effects of climate change on the most vulnerable. Photo: Montage - iStockphoto & Corrie Sissons/Tearfund
We learnt
- that reports such as *The restorative economy and campaigns such as Ordinary Heroes* result in high levels of interest and engagement from the public, policymakers, church leaders, civil servants, academics and NGOs
- that communities empowered by churches are able to draw down significant amounts of government funding for services such as schools, clinics and roads when they hold their government to account
- through research how governments can support the vital role played by faith leaders in response to the Ebola epidemic
- that faith leaders play a vital role in leading communities’ response to Ebola. For instance, ensuring people understand the need for safe burial can help stop Ebola spreading further. We have helped parliament’s International Development Committee recognise the role of faith leaders in this.

In 2016/17, we aim to
- conduct in-depth research into the unique role played by churches in holding local government to account in Uganda to inspire more churches to attempt such initiatives
- continue to resource and strengthen a global movement of Christians to live within, and call others to live within, the limits of our environment’s resources under our vision of a restorative economy
- publish research on a circular economy in Brazil, which is one of our strategic countries
- exceed our initial targets for churches and individuals to switch to using 100 per cent renewable electricity
- develop our UK church-based campaign strategy into a global approach. In January 2017, with partners and allies from at least 15 countries, we’ll launch a strategy with campaigns focusing on restorative economy and climate change

The restorative economy and campaigns such as Ordinary Heroes result in high levels of interest and engagement from the public, policymakers, church leaders, civil servants, academics and NGOs. Church leaders are able to draw down significant amounts of government funding for services such as schools, clinics and roads when they hold their government to account. Faith leaders play a vital role in leading communities’ response to Ebola. For instance, ensuring people understand the need for safe burial can help stop Ebola spreading further. - develop our UK church-based campaign strategy into a global approach. In January 2017, with partners and allies from at least 15 countries, we’ll launch a strategy with campaigns focusing on restorative economy and climate change.

When the government classified the Miskito people’s land as ‘unoccupied’, the officials left these rain forest communities vulnerable to exploitation by commercial agriculture.

**UN climate change talks**

Ahead of COP21 Paris, the UN Climate Change Conference, Tearfund supporters all over the UK were mobilised to march in support of a UN climate deal.

In 2015, the Church of England, Christian Aid, CAFOD and Tearfund came together to organise the Pilgrimage2Paris march. Pilgrims from across the UK walked from London to Paris over two weeks, calling on world leaders to agree a fair, ambitious and binding climate change deal. It started with a service at St Martin-in-the-Fields on Friday 13 November, and culminated in Paris on Friday 27 November, just ahead of COP21. Thirteen Anglican bishops joined the pilgrimage at various stages. Christiana Figueres, Secretary General of UNFCCC, received the pilgrims’ petition and said, through tears: “Collectively you have walked seven times around the globe. Thank you for every single step; for showing it is possible to tread lightly on this planet.”

At the conference, negotiators from more than 190 nations gathered to discuss a new global agreement aimed at limiting greenhouse gas emissions from 2020.
Making it happen...

Our work to follow Jesus where the need is greatest is made possible by a strong and dedicated network of churches, supporters and volunteers in the UK.

They campaigned, prayed and gave generously to support our work around the world, with a particular focus on helping the local church to combat the evil of child trafficking.

This year, 92,246 generous supporters trusted Tearfund to follow Jesus where the need is greatest and use their donations to help the world’s poorest and most vulnerable people.

Underlying giving from individuals and churches remained strong this year with a continued move towards more restricted giving.

In 2015/16, we celebrated:
- an increase in our voluntary income of £2.4m against target, excluding appeals
- the recruitment of more than 5,000 new regular givers. This was again due to the growth in our church speaker programme, and an incredible response at our spring and summer events, especially Big Church Day Out.
- supporters responding generously to our appeals for the Middle East, the European refugee crisis and the Nepal earthquake. Supporters donated an incredible £3.9 million towards the rescue and rebuilding efforts in Nepal.
- people being moved and inspired by our Christmas appeal for midwives in Malawi, raising more than £450,000 towards this work and many other types of work around the world.
- that UK trusts and individual key investors have enabled us to respond to small-scale disasters and provide vital support where other funding opportunities were unavailable. Twenty-four trusts gave their first gift this year totalling £158,370 and supporting the full range of our work.
- another successful partnership with church charity Hope, through our Christmas church resource, Sing Christmas
- more than 600 speaking engagements by Tearfund speakers across Northern Ireland, Scotland, England and Wales, bringing God’s heart for the poor to churches across the country
- formalising our work to ensure we protect potentially vulnerable adults when we are raising money. We want people to feel valued and a partner in our work and so all fundraising staff were trained to ensure that we never make anyone feel pressurised or uncomfortable in their giving.

Thank you, Holly!

Four-year-old Holly wrote us this letter, as she responded with heart-felt compassion to all that she’d just read in Tearfund’s Prayer Diary.

In 2015/16, we celebrated:

Big Church Day Out festival

Around 25,000 people gathered at Wiston House in Sussex for a bank holiday weekend of live music, praise and prayer in 2015 – and Tearfund was there with 250 volunteers to promote the No Child Taken campaign.

More than 1,450 people were moved and inspired to pledge their support after hearing stories of those affected by trafficking in India, which will enable us to help protect nearly 6,000 children from trafficking, disease and disasters.

‘It was an amazing response,’ says Janet McRae from Tearfund’s Events team. ‘God was with us every step of the way, in every detail.’

The generosity and faithfulness of the church has enabled us to help protect thousands of vulnerable children from the world’s fastest-growing crime.
INCOME AND EXPENDITURE
Tearfund’s total income for the year was a record £72.2m (2014/15: £61.9m). Income from donations increased to £48.7m (2014/15: £40.6m) due partially to an increase in donations for appeals and emergencies but also an increase in regular donation through the purchase of Toilet Twinning but mainly an increase in the generous donations of our supporters to our regular work. Voluntary donations for appeals and emergencies increased to £7.4m (2014/15: £5.4m). In 2015/16 Tearfund supporters responded generously to significant appeals to assist with the earthquake in Nepal, the refugee crisis in the Middle East and Ebola in Africa. Our underlying trend of non-appeal donations is up, with income rising to £37.2m (2014/15: £33.1m). The consolidated results include the operations of Tearfund Trading Limited (TTL), which is a wholly owned subsidiary of Tearfund. The income generated from TTL is from a variety of sources including Christmas card sales.

With the closure of our fair trade craft activity at the end of 2014/15, income from craft trading has reduced to almost nil from £0.6m in 2014/15. Tearfund now wholly owns Toilet Twining, as the joint venture with CORD has concluded. Toilet Twinning raises donation income for our water and sanitation work by ‘twinning’ toilets in projects with donors under the Toilet Twinning brand name. Toilet Twinning income is expected to grow significantly in the coming few years as we reach different markets.

Income from contractual services has remained steady at £3.8m (2014/15: £3.9m). Tearfund’s contract in DRC to deliver water, health and sanitation improvements has been successfully implemented. Monitoring success will continue into 2016/17. Further contract work is being sought, however: income in this area is expected to drop in 2016/17.

Money spent on fundraising represented 10.6 per cent (2014/15: 9.4 per cent) of total income, which compares favourably with similar organisations. Total expenditure increased by 6.5 per cent to £68.1m (2014/15: £63.9m). At the end of March 2016, Tearfund launched its Give Like Jesus campaign to engage new supporters with Tearfund’s work, particularly in disaster situations, using the story of Hille Bar village in Chad.

Unrestricted funds have a surplus of £3.0m (2014/15: £0.3m). Of this, £1.6m is due to a planned surplus to help fund the essential building repair project of our head office which will take place in 2016/17. The surplus will be allocated to delivering our outcomes. The increase in restricted funds of £1.1m represents planned appeal expenditure where income has been received but work will be continuing in future years.

In December 2015, we received notification from the Sudanese government that our work in Sudan was to be closed down. In order to ensure that the 300,000 vulnerable people per year that our Sudan work served were impacted as little as possible, we worked with government officials, donors, other NGOs and the UN.

We are now refreshing our strategy to ensure that we set the right direction for Tearfund in the coming years, building upon our existing ten-year vision to see 50 million people released from material and spiritual poverty through a worldwide network of 100,000 local churches.

GRAINS
A large part of Tearfund’s work to address poverty is undertaken through making grants to partner organisations. Grants are made within an agreed strategy. Project proposals received from partner organisations are subject to a formal approval process that includes a technical assessment of the project and a review of the organisation’s capacity. An agreed monitoring process is undertaken during the life cycle of all projects. In addition, final evaluations are carried out on all large projects and on a sample of smaller projects. Details of grants made to the top 50 partner organisations are on our website at www.tearfund.org/report2016

GENERAL FUND (FREE RESERVES)
General reserves are needed to:
- fund working capital
- give flexibility to respond to unexpected opportunities
- provide a cushion against seasonal variations in income and expenditure
- provide contingency provision against unexpected costs
- provide contingency provision to respond to changes in Tearfund’s operating environment
- fund strategic plans outside of Tearfund’s normal operations

The Board of Directors of Tearfund review the level of required general reserves annually to ensure that an appropriate level is held. Following the review in 2015/16 the range of general reserves decreased to reflect the reduction in working capital required to fund contract income. The target range is now set at £3.5m and £4.0m (2014/15: £4.0m and £4.5m). The current level of general fund is £6.7m (2014/15: £5.8m). Included within this is the additional income made in 2015/16 over budget which has been allocated to future front-line work. After taking this into account, our reserves are within the target range.

DESIGNATED FUNDS
Designated funds are part of the general fund which Trustees have earmarked for a particular use, without restricting or committing the funds legally. The fixed asset fund represents the net book value of Tearfund’s fixed assets ‘including the purchase of Toilet Twinning’ to indicate that these resources are not available for other purposes, and funds set aside for the known 2016/17 urgent repair project. At the end of the year this stood at £5.2m (2014/15: £3.3m).

Tearfund maintains one other designated fund, for disaster management work, which has not yet been allocated to specific projects. At the end of the year the balance in this fund was £0.3m (2014/15: £0.1m). The majority of this fund balance represents money set aside for the replacement of vehicles in our overseas locations and will be used as vehicles need replacing. The remainder represents a balance on money set aside for disasters which will be spent in 2016/17.

RESTRICTED FUNDS
Restricted funds are funds subject to specific conditions imposed by donors. The major balances have arisen from recent emergencies, where we have received substantial income in a short period which is then budgeted to be spent over a number of years. At the end of the year total restricted funds were £15.5m (2014/15: £14.4m).

For each fund, Tearfund’s assets are available and adequate to fulfil its obligations and will be spent in line with the project plans for each fund.

INVESTMENT POLICY AND PERFORMANCE
Tearfund’s investment policy is reviewed annually by the Audit, Risk and Finance Committee of the Board. Our objective is to maintain high liquidity while ensuring maximum security. To achieve this, Tearfund invests with institutions with a high security rating in fixed-term or call deposits. During the year Tearfund’s sterling deposits achieved an average rate of interest of 0.9% (2014/15: 0.9%) compared with an average bank base rate for the same period of 0.5% (2014/15: 0.5%).
PRINCIPAL RISKS AND UNCERTAINTIES
The Directors have identified the most important potential risks and uncertainties that may seriously affect the performance, future prospects or reputation of Tearfund and how they will be managed.

QUALITY STANDARDS
Compliance with the wide range of quality standards produced in our sector became onerous for our partners and created inconsistency in the standards being applied. In response we identified a set of corporate Quality Standards.

VALUES:
- living out our core values through our staff and with our partners

IMPARTIALITY AND TARGETING:
- reaching the most vulnerable and marginalised people, selected on the basis of need alone, regardless of their race, religion, gender or nationality

ACCOUNTABILITY:
- being fully accountable to project participants, communities, partners, supporters and donors for the work we undertake, and for the resources entrusted to us

SUSTAINABILITY:
- empowering staff and partners and ensuring that the work we support has a lasting impact, being built on local ownership and using local skills and resources

ADVOCACY:
- influencing key decision-makers to make and implement policies and practices that work in favour of people who are poor and vulnerable

CHILDREN AND VULNERABLE ADULTS:
- the development and protection of children and vulnerable adults, carrying out activities that are sensitive in their planning, design and implementation

GENDER:
- restored relationships between men, women, boys and girls, and ensuring equal value, participation and decision-making by all

HIV:
- working for an HIV-free world by reducing the vulnerability of poor communities to HIV and reducing its impact

ENVIRONMENT:
- reducing our impact on the environment

DISASTER RISK:
- reducing the impact of disaster by strengthening local capacity and reducing vulnerability to hazards

CONFLICT:
- promoting peace and reconciliation - supporting activities that impact positively upon situations of conflict and that safeguard staff and project participants

TECHNICAL QUALITY:
- supporting projects that are guided by relevant technical standards

Core Humanitarian STANDARD

'I want to express my deepest gratitude for the trust in the process of the whole Tearfund team and having accepted the risk to undergo the CHS audit. This was absolutely key in shaping the whole concept of CHS certification’

Pierre Haasemann, Executive Director, Humanitarian Quality Assurance Initiative

Tearfund seeks to enhance the capacity of its partners. We are successful when others are empowered.

A Quality Standards workshop in the Philippines. Photo: Tom Price/Tearfund

Our Quality Standards include having zero tolerance for all forms of exploitation and abuse, fraud, bribery and any other conduct which is incompatible with our core values.

We have a corporate action plan for our Quality Standards which is available on our website where we identify our improvement commitments and monitor progress: http://www.tearfund.org/en/about_us/how_we_work/tearfund_quality_standards/
STRUCTURE, GOVERNANCE AND MANAGEMENT

Tearfund is a registered charity in England and Wales and in Scotland. It is also a registered company limited by guarantee in England and Wales. It is governed by a memorandum and articles of association.

ORGANISATION

The Board of Directors holds formal, scheduled, all-day meetings four times a year as well as a number of other ad hoc meetings and events. The Board is responsible for ultimate strategic decisions, having taken advice from the Chief Executive and senior management. Directors are appointed by the Members at the Annual General Meeting. The Directors may also appoint a Director to serve until the next Annual General Meeting, at which time he or she would cease to hold office, but would be eligible for election. The procedures for appointment and induction of Directors are set out in the Tearfund Board Manual.

Directors’ recruitment is undertaken by the Board in consultation with the Chief Executive and Executive team. An induction programme is run for new Directors which includes visiting Tearfund’s UK offices and an overview of Tearfund’s activities. Directors also visit overseas programmes to gain a wider appreciation of Tearfund’s work. Directors of the Board receive no remuneration for acting as Directors of Tearfund.

The current composition of the Board of Directors is set out on page 48. Directors are appointed for three years and serve a maximum of three terms. As permitted by the Articles of Association, the Directors have the benefit of an indemnity which is a qualifying third party indemnity provision as defined by Section 234 of the Companies Act 2006. The indemnity was in force throughout the last financial year and is currently in force. The company also purchased and, throughout the financial year maintained, Directors’ and Officers’ liability insurance in respect of itself and its Directors.

Board committees meet regularly to oversee the following areas:

- Audit, risk and finance. Ensure the organisation’s key risks are adequately managed through financial and non-financial internal control.
- International. Overseas delivery of Tearfund’s work.
- Global fundraising. Overseas fundraising and marketing of Tearfund globally.
- People and organisation (including remuneration, and health and safety matters). Provide advice to the Executive team relating to people, the organisation and the culture.

The Board has delegated approval for day-to-day operational decisions up to certain financial thresholds to the Chief Executive and other Executive team members under a Scheme of Delegation to enable them to co-ordinate and direct Tearfund’s work worldwide. All decisions above this threshold must be approved by the Board. The Board has also reserved to itself certain important decisions, such as changes to the Articles, appointment of the Senior Executives and approval of the long-term objectives and strategy.

EMPLOYEES

The work of Tearfund overseas and in the UK relies on the commitment and hard work of its valued staff. The decision-making processes within Tearfund incorporate an established consultation process through the line management structure. Communication links are maintained through team briefings and other internal channels.

Tearfund holds regular meetings with a staff representation body, known as the Staff Council, for consultation and negotiation on relevant issues. This is to ensure continued promotion and development of healthy staff relations. Tearfund is committed to equality in recruiting, training, promotion and career development. This includes applicants and employees who are disabled as well as employees who become disabled during their employment by Tearfund.

VOLUNTEERS

The financial statements set out the results for the year but do not reflect the considerable and vital support given to Tearfund by more than 3,900 volunteers in the UK. Their help is at the heart of Tearfund’s work: they bring life to the organisation and help it to operate effectively. The many roles they undertake include encouraging prayer, campaigning, acting within their local churches and communities, enthusing others, engaging with local media and championing fair trade. We create the enormous contribution made by so many of our volunteers in organising or participating in fundraising activities in their homes, churches and communities. This volunteer network is a distinctive aspect of Tearfund’s approach and the Board is very grateful for their commitment and contribution.

INTERNAL CONTROL AND RISK MANAGEMENT

The Directors have overall responsibility for Tearfund’s system of internal control. Such a system can provide only reasonable, and not absolute, assurance against errors or frauds. There is a clear delegation of the Directors’ authority through the Chief Executive to the rest of the organisation.

The Audit, Risk and Finance Committee, which meets four times a year, receives reports from the internal auditor, who works in accordance with an agreed plan produced following a risk assessment. In addition, the external auditor meets with the Audit, Risk and Finance Committee once a year.

Tearfund operates a comprehensive three-year planning and budgeting system with an annual budget approved by the Board of Directors. Significant changes are subject to specific approval. The financial reporting systems provide continuous comparison of actual results with budget. Forecasts of the expected results for the year are undertaken on a regular basis. Tearfund maintains a comprehensive register of risks. This register identifies the major strategic and operational risks faced and how they are being managed. As part of the three-year planning process the key risks are considered by the Directors and the risks Tearfund faces are reassessed during the year by the Executive team. The Directors are satisfied that systems are in place to monitor, manage and mitigate Tearfund’s exposure to major risks. They consider that maintaining Tearfund’s general reserves at the levels stated above and reviewing internal controls and risks through an internal audit programme will provide Tearfund with adequate risk assurance and sufficient resources in the event of adverse conditions. They also recognise that the nature of some of Tearfund’s work requires active acceptance and management of some risks when undertaking activities to achieve the objectives of the charity.

Fraud is a major risk in many countries where Tearfund and its partners operate. As a result, Tearfund recognises fraud as one of the major risks that has to be managed. All potential frauds or other irregularities are required to be reported to the Finance Director, who maintains a register of the irregularities, actions taken and results. This register is reviewed regularly by the Audit, Risk and Finance Committee.

FINANCIAL RISK MANAGEMENT

Goods and services purchased are subject to contracts with suppliers based on market prices. Market risk is dealt with in the investment policy and performance section above. Credit risk on amounts owed by donors is low. Cash flow and liquidity risks have been minimised by the level of reserves held and lack of borrowings. Action is taken to mitigate foreign exchange risk; future programme expenditure may be hedged by the use of forward exchange contracts when this is deemed appropriate.

RENUMERATION

Tearfund’s remuneration policy seeks to balance our Christian values with the ability to attract and retain the best people in our sector. We do this by market-matching our salary scales every two to three years using the following factors:

- greater London-based organisations
- a 2:1 split between charities based on private donations and charities based on state grants
- organisations with income of between £40m and £75m
- organisations of between 200 and 499 employees
- a 2:1 split between international aid, and religious and missionary organisations

Funding from the Scottish government and Scottish trusts. We raise funds from individuals and other organisations throughout Scotland, and raise other support including campaigning and prayer support. In the financial year 2015/16, we ceased our grant-making activities in Scotland (2014/15: £15,000). Our latest exercise was completed in 2015/16. Our salary scales are set at less than the mid-point of market benchmark data. We take inflation into account by considering yearly increases based on available finances, consultation with Staff Council and a survey of similar organisations in the sector. Tearfund’s Executive team sit in the top scale of the UK salary structure, within the framework set out above. The Board sets the salary for the Chief Executive. Details regarding employees with salaries above £60,000 can be found in Note 7 to the financial statements.

HEALTH AND SAFETY

Tearfund has a health and safety policy in place in respect of both UK and international operations, and the Board reviews Tearfund’s performance annually at the People and Organisation Committee.

TEARFUND SCOTLAND

We are required by the Office of the Scottish Charity Registrar to report separately upon the activities that Tearfund has undertaken in Scotland. These activities are led by a team based in Tearfund’s Glasgow office. We receive funding from the Scottish government and Scottish trusts. We raise funds from individuals and other organisations throughout Scotland, and raise other support including campaigning and prayer support. In the financial year 2015/16, we ceased our grant-making activities in Scotland (2014/15: £15,000).
DIRECTORS’ RESPONSIBILITY STATEMENT

The Directors (who are the directors of Tearfund for the purposes of company law and the Trustees of Tearfund for the purposes of charity law) are responsible for preparing the Directors’ Report (including the Strategic Report) and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company and the group and of the incoming resources and application of resources, including the income and expenditure, of the group for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently
- observe the methods and principles in the Charities Statement of Recommended Practice (SORP)
- make judgments and estimates that are reasonable and prudent
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in business

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure that the financial statements comply with the Companies Act 2006, the Charities and Trustee Investment (Scotland) Act 2005 and the Charities Accounts (Scotland) Regulations 2006.

They are also responsible for safeguarding the assets of the charitable company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the Directors are aware:

- there is no relevant audit information of which the charitable company’s auditor is unaware; and
- the Directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the charitable company’s website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Directors’ Report and Strategic Report were approved by the Directors on 13 July 2016 and signed on their behalf by:

INDEPENDENT AUDITORS’ REPORT TO THE MEMBERS AND TRUSTEES OF TEARFUND

We have audited the financial statements of Tearfund for the year ended 31 March 2016 which comprise the Group Statement of Financial Activities, the Group Summary Income and Expenditure Account, the Group and Parent Charitable Company Balance Sheets, the Group Cash Flow Statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom: Generally Accepted Accounting Practice).

This report is made solely to the charity’s Trustees and Members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and the Charities and Trustee Investment (Scotland) Act 2005. Our audit work has been undertaken so that we might state to the charity’s Trustees and Members those matters we are required to state to them in an auditors’ report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity’s Trustees and Members as a body, for our audit work, for this report, or for the opinions we have formed.

RESPECTIVE RESPONSIBILITIES OF TRUSTEES AND AUDITOR

As explained more fully in the Directors’ Responsibilities, the Trustees (who are also the Directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

We have been appointed as auditor under Section 44(1)(i) of the Charities and Trustee Investment (Scotland) Act 2005 and under the Companies Act 2006 and report in accordance with regulations made under those Acts.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Financial Reporting Council’s (FRC’s) Ethical Standards for Auditors.

SCOPE OF THE AUDIT OF THE FINANCIAL STATEMENTS

A description of the scope of an audit of financial statements is provided on the FRC’s website at www.frc.org.uk/AuditScopeUKprivate.

OPINION ON FINANCIAL STATEMENTS

In our opinion the financial statements:

- give a true and fair view of the state of the group’s and the parent charitable company’s affairs as at 31 March 2016 and of the group’s incoming resources and application of resources, including its income and expenditure, for the year then ended
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice
- have been prepared in accordance with the requirements of the Companies Act 2006, the Charities and Trustee Investment (Scotland) Act 2005 and regulations 6 and 8 of the Charities Accounts (Scotland) Regulations 2006 (as amended)

OPINION ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion the information given in the Trustees’ Annual Report, which includes the Strategic Report, for the financial year for which the financial statements are prepared is consistent with the financial statements.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following matters where the Companies Act 2006 and the Charities Accounts (Scotland) Regulations 2006 (as amended) require us to report to you if, in our opinion:

- the parent charitable company has not kept proper and adequate accounting records or returns adequate for our audit have not been received from branches not visited by us, or
- the parent charitable company financial statements are not in agreement with the accounting records or returns, or
- certain disclosures of Trustees’ remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit

| Net income / (expenditure) for the year | 3,232                    | 847                    | 4,079                 | (2,076)                         |
| Transfers between funds           | (252)                    | 252                    | -                     | -                               |
| Net movement in funds             | 2,980                    | 1,099                  | 4,079                 | (2,076)                         |

Reconciliation of funds:

Total funds brought forward at 1 April | 9,205                   | 14,372                 | 23,577                 | 25,653                          |

Total funds carried forward at 31 March | 12,185                   | 15,471                 | 27,656                 | 23,577                          |

The result for the year for Companies Act 2006 purposes is represented by the net movement in funds in the consolidated statement of financial activities. There are no recognised gains or losses in the current or preceding year other than those shown in the consolidated statement of financial activities above. All amounts derive from continuing operations. There is no material difference between the net expenditure for the financial year stated above and its historical cost equivalents. There is no material difference between the entity and the group Statement of Financial Activities.

The financial statements on pages 32 to 47 were approved by the Board of Directors on 13 July 2016 and signed on its behalf by:

Clive Mather,  
Chairman

John Shaw,  
Treasurer

NOTES TO THE FINANCIAL STATEMENTS 31 March 2016

1. ACCOUNTING POLICIES

Basis of preparation
The financial statements have been prepared on a going concern basis under the historical cost convention and in accordance with the Companies Act 2006, Charities Act 2011, Charities Accounts (Scotland) Regulations 2006, Charities and Trustee Investment (Scotland) Act 2005 and the Statement of Recommended Practice (SORP) on Accounting and Reporting by Charities effective from 1 January 2015 and FRS 102, and applicable United Kingdom accounting standards. The Charity has adapted the Companies Act formats to reflect the Charities SORP and the special nature of the Charity’s activities.

Consolidation
The Statement of Financial Activities (SOFA) and Group Balance Sheet consolidate the financial statements of the Charity and its wholly-owned subsidiary undertaking Tearfund Trading Limited. The results of the subsidiary are consolidated on a line-by-line basis. No separate Statement of Financial Activities has been presented for the Charity alone as permitted by Section 408 of the Companies Act 2006. The turnover of the Company for the year was £71,988,000 (2014/15: £61,638,000) and its net result was a surplus of £4,079,000 (2014/15: £2,076,000).

Reconciliation of net income / (expenditure) to net cash flow from operating activities
Net income for the reporting period (as per the statement of financial activities) 4,079 (2,076)
Adjustments for:
- Depreciation charges 454 211
- Investment income receivable (165) (152)
- (Profit) / Loss on sale of tangible fixed assets (8) (1)
- (Increase) / decrease in stocks (5) 103
- Decrease / (increase) in current asset investment - 46
- Decrease / (increase) in debtors 591 (1,587)
- Increase / (decrease) in creditors 1,083 (320)
Net cash provided by operating activities 6,029 (3,776)

</tbody>
</table>

Legacies
Recognition of legacy income is dependent on the type of legacy, with pecuniary legacies recognised when notification of receipt is received and residuary legacies are recognised at a discount rate when it is measurable. Probate has been granted and entitlement is clear. No value is included where the legacy is subject to a life interest held by another party.

Grants and contracts
Grant and contract income is recognised when the charity can demonstrate entitlement to the income. Where receipt of funding is conditional on administrative requirements such as the submission of a claim, it has been accrued. Where there are restrictions on the time period in which funding received can be spent, or where the charity is not yet in a position to meet the conditions of the funding, the related income has been deferred.

Gifts in kind
Gifts in kind in note 3 consist predominantly of food aid and are included in income at their market value when they are distributed. Pro bono legal work is included as a donation in note 2 and as support costs as it is received.

Expenditure
All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to that category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources. Like many charities, Tearfund is unable to support cost of the VAT that is incurred on the purchase of goods and services in the UK. The amount of VAT that cannot be recovered is added to the appropriate underlying cost.

The following specific policies apply to categories of expenditure:

Grants payable
Grants payable to Tearfund partner organisations are made in furtherance of the charity’s objects. Grants are recognised as expenditure when payment is due to the partner organisation, in accordance with Tearfund’s project agreement, and in line with partner performance.
NOTES TO THE FINANCIAL STATEMENTS
31 March 2016

Support costs
Support costs include functions such as general management, financial management, information technology, human resources and the cost of premises and facilities. They are allocated across the categories of charitable expenditure, governance costs and the costs of generating funds on the basis set out in note 4 to the financial statements.

Fundraising and publicity
Fundraising costs are those incurred in seeking voluntary contributions and do not include the costs of disseminating information in support of the charitable activities.

Foreign exchange
Transactions denominated in foreign currency are translated into sterling and recorded at the rates ruling at the date of the transactions. Balances denominated in a foreign currency are translated into sterling at the exchange rates at the balance sheet date. Foreign exchange gains and losses incurred in respect of overseas operations are included in the SOFA within the relevant activity expenditure.

Pensions
Tearfund operates two defined contribution pension schemes. Contributions are charged to the SOFA as they become payable.

Tangible fixed assets and depreciation
Tangible fixed assets are stated at cost less accumulated depreciation. Assets costing more than £1,000 with an expected useful life of more than one year are capitalised. Depreciation is provided in order to write off the cost of tangible fixed assets over their estimated useful economic lives, on a straight-line basis, as follows:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Useful Economic Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freehold land</td>
<td>Nil</td>
</tr>
<tr>
<td>Freehold buildings</td>
<td>50 years</td>
</tr>
<tr>
<td>Refurbishment of freehold buildings</td>
<td>20 years</td>
</tr>
<tr>
<td>Fixtures, fittings and equipment</td>
<td>3-5 years</td>
</tr>
<tr>
<td>Motor vehicles</td>
<td>3-4 years</td>
</tr>
<tr>
<td>Computer equipment</td>
<td>3 years</td>
</tr>
</tbody>
</table>

The useful economic lives and residual value of fixed assets are reviewed at the end of each accounting period. Land is tested for impairment.

Vehicles and equipment used in programmes overseas are considered to have a useful economic life of one year or less. They are not capitalised but are charged in full to charitable expenditure when purchased. However a register is maintained of these assets and reviewed regularly.

Intangible assets
Intangible assets are stated at cost less amortisation. They are amortised on a straight-line basis over the lease term. When purchased. However a register is maintained of these assets and reviewed regularly.

Literacy
The investment in the subsidiary is included in the Company’s financial statements at cost.

Financial instruments
Financial instruments and financial liabilities are recognised when Tearfund becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are initially measured at transaction price (including transaction costs). Tearfund only has financial assets and financial liabilities of a kind that qualify as basic financial instruments.

Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value. Trade and other debtors are recognised at the settlement amount due after any trade discount offered.

Operating leases
Costs in respect of operating leases are charged to the SOFA on a straight-line basis over the lease term.

The above is all unrestricted expenditure/(income) except the profit on sale of tangible fixed assets in 2015/16, which is restricted which is restricted and operating leases of £675,000 in 2015/16 (2014/15: £551,000).

7. EMPLOYEES AND TRUSTEES

7.1 UK-contracted employees:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Salaries and wages</td>
<td>12,096</td>
<td>4,071</td>
</tr>
<tr>
<td>Social security costs</td>
<td>1,076</td>
<td>46</td>
</tr>
<tr>
<td>Other pension costs</td>
<td>1,249</td>
<td>222</td>
</tr>
<tr>
<td>Staff based overseas on local contracts</td>
<td>14,421</td>
<td>4,399</td>
</tr>
</tbody>
</table>

Included in the above employee costs are redundancy costs of £69,000 (2014/15: £168,000). Redundancy costs are provided for when they are estimable and settlement is probable in the next financial year.

Average full-time equivalent number of persons employed during the year:

<table>
<thead>
<tr>
<th></th>
<th>2016 Number</th>
<th>2015 Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>UK-contracted employees based:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>In UK</td>
<td>348</td>
<td>343</td>
</tr>
<tr>
<td>Overseas</td>
<td>123</td>
<td>123</td>
</tr>
<tr>
<td>Staff based overseas on local contracts</td>
<td>471</td>
<td>466</td>
</tr>
</tbody>
</table>

Within UK-contracted employees, UK staff includes those personnel based at Tearfund’s head office in Teddington together with those based at regional offices in the UK. Overseas staff on UK contracts includes UK nationals working overseas as well as non-UK nationals employed to work in various countries around the world. Staff based overseas on local contracts are employed within our disaster management operations. All staff were employed across the range of activities detailed on the SOFA. No employees are employed directly by Tearfund Trading Limited.

The number of employees whose emoluments (including benefits in kind but excluding employer’s pension) amounted to over £60,000 in the year was as follows:

<table>
<thead>
<tr>
<th></th>
<th>2016 Number</th>
<th>2015 Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>£60,001 - £70,000</td>
<td>4</td>
<td>6</td>
</tr>
<tr>
<td>£70,001 - £80,000</td>
<td>-</td>
<td>2</td>
</tr>
<tr>
<td>£80,001 - £90,000</td>
<td>1</td>
<td>1</td>
</tr>
</tbody>
</table>

Pension payments of £32,477 (2014/15: £58,200) were made for these five (2014/15: nine) higher-paid employees. The new Chief Executive Officer was employed for less than one year; the total remuneration received by him in the year (including pension contributions and benefits in kind) was £35,285 (2014/15: incumbent CEO: £97,500). In 2015/16 the senior executives of the organisation earned a total of £494,000 (2014/15: £490,000) including pensions.

7.2 Trustees

As Charity Trustees, the Board of Directors, who are not employees, received no remuneration for their services. During the year six Directors were reimbursed for a total of £106 for UK travel and subsistence expenses (2014/15: two for £576). One Director also had overseas travel paid for by Tearfund of £276 (2014/15: one for £912). Indemnity insurance is provided for the Directors at a cost of £2,896 (2014/15: £2,780).

7.3 Pensions

Tearfund has a defined contribution pension plan for UK employees called the Tearfund Group Personal Pension Plan and a separate defined contribution pension plan for overseas employees called the Tearfund International Group Personal Pension Scheme. These plans operate on a non-contributory basis.

Included within creditors falling due within one year is £146,158 (2014/15: £134,000) in respect of pension contributions due to be paid to the fund managers.
NOTES TO THE FINANCIAL STATEMENTS
31 March 2016

8. TAXATION
Tearfund is potentially exempt from taxation on its income and gains under Sections 466 to 493 of the Corporation Tax Act 2010 and Section 256 of the Taxation of Capital Gains Act 1992, to the extent that they are applied for charitable purposes. No taxable profit arises on Tearfund Trading Limited due to the fact that all taxable profits are gifted to Tearfund.

Designated funds are set up for the following purposes:
- The fixed asset fund represents the net book value of Tearfund’s tangible and intangible fixed assets to indicate that these resources are not available for other purposes. In 2015/16, included in this fund, the Board has set aside a total of £2,524,000 for an essential building repair project which is required and is being carried out over the next year. Of this, £919,000 was already set aside in previous years for this project.
- The disaster management funds represent funds set aside for disaster management work which have not yet been allocated to specific projects.

Restricted funds are shown under the following main categories:
- Appeal and emergency funds comprise funds raised for specific appeals and emergencies.
- Country funds comprise funds given for specific countries.
- Project funds comprise funds given for specific projects, mainly by institutional donors.
- Beneficiary funds comprise funds given for the benefit of specific beneficiary groups such as children.
- Issue funds comprise funds given for specific issues such as disaster management and HIV.

Fund balances may be negative when expenditure is made on a project that is expected to be reimbursed by a government or other agency but where, at the year-end date, not all the conditions to justify recognising the income within the financial statements had been met. This results in an excess of expenditure over income on some project funds. At 31 March 2016, the total deficit balances amounted to £111,000 (2014/15: £11,000).

Transfers between funds represent:
- (a) movements on the net book value of tangible fixed assets between the general fund and the fixed asset fund and the change in the provision for the roof repairs
- (b) reallocations between funds where funds are used for the same/similar work in the same country
- (c) reallocation of general funds to support programmes where additional restricted funding was not found

Within restricted funds are the following amounts relating to money received from the following donors:

Department for International Development (DFID)

In addition, Tearfund made payments of £21,127 in 2015/16 (2014/15: £20,029) for project management and consultancy services, relating to marketing and fundraising, provided by Mrs Chowdhury-Westlake. Mrs Chowdhury-Westlake is the wife of David Westlake, a senior executive of Tearfund. David Westlake is a trustee of Soul Survivor which is a supplier to Tearfund with payments of £14,222 in 2015/16 (2014/15: £14,733), and also a trustee of Micah Network which is a supplier to Tearfund with payments of £19,400 in 2015/16.

Total donations from Trustees and their related parties for the year amounted to £18,034.
The following information forms part of the Directors’ Report

**BOARD OF DIRECTORS**

The Board of Directors is responsible for ultimate strategic decisions and is appointed by the Members at the Annual General Meeting (AGM). The Board of Directors who were in office during the year and up to the date of signing the financial statements were:

- Clive Mather (Chairman) ¹
- John Shaw (Treasurer) ²
- Robert Camp ²
- Jenny Baker ³
- Chris Collinson ⁵
- Anne De Loyser ⁴
- Nick Henwood ⁴
- Phil Hewinson ⁷ (to March 2016)
- Sarah King ¹
- Iain Macaulay ⁴
- Fiona Major ⁴
- Francis Maud ⁴
- Gordon MacKeanse ⁴
- Phillip McMillan ⁶ (from February 2016)
- Alastair Muir ⁴
- Ruth Robb ⁴
- Michael Stewart ⁴
- David Thomas ³
- Mark Thompson ³
- Ed Tranter ³ (to June 2015)
- Pete Wynter ³ (to July 2015)

**COMMITTEE MEMBERS**

The Board recruits Members with specific expertise to sit on sub-committees of the Board.

- Stephen Adams ² (to March 2016)
- Gary Carpenter ² (to February 2016)
- Sabrina Clarke ⁷ (from November 2015)
- Chris Collinson ⁵
- Anne De Loyser ⁴
- Nick Henwood ⁴
- Phil Hewinson ⁷ (to March 2016)
- Sarah King ¹
- Iain Macaulay ⁴
- Fiona Major ⁴
- Francis Maud ⁴
- Gordon MacKeanse ⁴
- Phillip McMillan ⁶ (from February 2016)
- Alastair Muir ⁴
- Ruth Robb ⁴
- Michael Stewart ⁴
- David Thomas ³
- Mark Thompson ³
- Ed Tranter ³ (to June 2015)
- Pete Wynter ³ (to July 2015)

**OTHER MEMBERS**

In addition to the Board of Directors and the Committee Members, the following people are also Members.

- Stephen Adams
- David Adeney
- Ian Angeli
- Rev Celia Apeageyi-Collins
- Simon Batchelor
- Rev Andy Bowerman
- Paul Brigham
- Miles Buttrick
- Lord Carey
- Richard Carter
- John Colles

- Rev Ian Prior
- Rev John Smith
- Paul Spray
- Dr Elaine Starkey
- Rev Ric Thorpe
- Rev Sarah Tillett
- Ed Tranter
- David Todd
- Professor Andrew Tomkins
- David White
- Chris Wright
- Peter Wynter

**VICE PRESIDENTS**

We have a number of Vice-Presidents, who are all highly respected in their walks of life. They volunteer their time to represent Tearfund publicly, and help us to tell the stories of lives being transformed around the world as we work to tackle material and spiritual poverty.

- Rev Celia Apeageyi-Collins
- Lord and Lady Carey
- Steve Clifford
- John & Anne Coles
- Roger Forster
- Effed Goddung
- Pete Greig
- Lord Michael Hastings
- Dr Krish Kandiah
- Rev Katei Kirby
- Rev Alan McWilliam
- Bishop Harold Miller
- Rev Siwe-Huat Ong
- Rev Mike Pilavachi
- Caroline Spelman
- Rev Ric Thorpe
- Stephen Timms
- Chris Wright

**EXECUTIVE TEAM**

The following information forms part of the Directors’ Report

‘The greatest NGO on earth today is undoubtedly the church of Jesus Christ. By working through partnerships Tearfund harnesses the power of up to 2 billion Christians to change the world in quiet, rooted, measurable ways. As a pastor, I appreciate the way Tearfund values the heroic vocation of local churches. As a prayer leader, I appreciate the intelligent spirituality that underpins Tearfund’s social engagement. And as someone with a passion for justice, I am grateful to Tearfund for enabling me to be part of something bigger than my own postcode.’

Pete Greig, co-founder of the 24-7 Prayer movement and pastor of Emmaus Rd
