We are also pleased to report that Dunmurry Community Association has continued to support all our residents which includes our long-term residents, multi-cultural families (such as the Indian, Pakistani, Nepalese, Hungarian community and many more).

Dunmurry Community Association have many ideas in the coming year in relation to providing a continued support network for all our residents. We are planning to have an ‘International Day’ where all cultures within the community of Dunmurry can come together and provide food, music etc.

The Association has also ran an OCN History course which involved a variety of workshops and concluded with a 4 day trip to Belgium and France to visit the war cemeteries of the various countries who took part in the War.

As Chairperson of Dunmurry Community Association I must admit that without the help and efforts of our continued volunteers the Association would cease to exist.

THANK YOU.
